Optical Plus - \$175.00 OBO

The **Optical Plus** is the newest, brightest, most powerful optical instrument for cylinder inspection from Advanced Inspection Technology. The **Optical Plus** has the highest magnification (4X), clarity and lighting capability available, surpassing anything you have used in the past. The **Optical Plus** provides full vertical adjustment and 360-degree rotation within the threads. This allows for perfect alignment between the instrument and threads for ease of use and performance during inspection.

Industry-Leading features include:

- Rugged, anodized aluminum construction
 - Adjustable focusing for clearer and brighter viewing
 - Adjustable light intensity for differing surface reflectivity
 - 4X magnification for the closest thread view possible
- Single unit capable of inspection: SCUBA, Medical, SCBA, AFV, Industrial Special Gas and CO2.

Case: Water resistant case with carrying handle. The exterior dimensions (L x W x D) are 12" x 8" x 3.5". The case has custom formed foam cavities for **Optical Plus** and spare batteries.

The unit comes with user manual, spare batteries (N size), and carrying case. The unit is approximately one year old and in new like condition. A new unit retails for about **\$400.00** without a case, but selling this unit for **\$175.00 OBO**.

The sales price does not include shipping and handling. Items will be shipped Priority Mail within the continental United States for **\$25.00**. Additional shipping charges will apply if express or next day delivery required.

Will be glad to answer any questions you have. Please contact by phone at (972) 467-8314 or by email.
